Reasons for Allowance

1. Examiner has reviewed and considered Applicant's comments as indicated on pages 15 -16 of Applicants most recent response dated (05/21/2008), and after further review and also based on previously allowed claims in the previous action of 01/10/08 and based on current amendments in Applicants most recent response Examiner is hereby placing claims 1-11, 13 - 18, 20 - 48, 50 - 55 and 57 - 75 in condition for allowance.

The following is an Examiner's statement of reasons for allowance.

The prior art of record does not teach or fairly suggest at least:

"...issuing a request by the transaction terminal application to an Extensions for Financial Services Protocol ("XFS") manager to get the transaction terminal device service; translating the request by the XFS manager for processing by a service provider; and obtaining the transaction terminal device service by the service provider; wherein obtaining the transaction terminal device service by the service provider further comprises processing the request in at least one of an immediate processing part and a deferred processing part; and wherein processing the request in the deferred processing part further comprises placing a request object on a deferred

processing queue " in such a manner as recited in claims 12, and as best illustrated by FIG.1 and in such a manner as recited in independent claims 1 and 38 and as pointed out in page 16, of Applicant's response of (05/21/2008).

"...making a sub-routine call by the transaction terminal application to a lower level layer of central transaction terminal monitoring and management application software to request device service from a service provider; translating the sub-routine call at the lower level layer into a function category request by an Extensions for Financial Services Protocol ("XFS") manager as an entry point into the service provider for processing by the service provider, the function request being selected from a group of function requests consisting of a WFPCancelAsyncRequest request, a WFPClose request, a WFPDeregister request, a WFPEXecute request, a WFPGetInfo request, a WPFlock request, a WFPOpen request, a WFPRegister request, a WFPSetTraceLevel request, a WFPUnloadService request, and a WFPUnlock request; and returning a result of the function category request to the application by the service provider..." in such a manner as recited in claim 75, and as best illustrated by FIG.1 and in such a manner as recited in independent claims 1 and 38 and as pointed out in page 16, of Applicant's response of (05/21/2008).

Therefore, remaining claims 1-11, 13 - 18, 20 - 48, 50 - 55 and 57 - 75 are in condition for allowance.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
